VA 1.20/4:

Preface

This catalog is issued pursuant to the provisions of VA Manual MP-1 Part II, Chapter 16, Paragraph 8.

Part I—Administrative issues listed in *alphabetical* sequence by category; such as, Secretary's Decisions, Bulletins and Catalogs. The issues are identified by the short title (numerical designation) in most instances and long title followed by the recurring publication code number.

Part II—The same issues as listed under Part I, in recurring publication code number sequence.

Part III—Listing of new, canceled or converted codes.

Except part II which will identify new changes, the listings will **NOT** be identified by the use of brackets or any symbol since publication to which the recurring code number is assigned will normally have been distributed well in advance of the issuance of this catalog and user controls will have already been established on VA Form 70-2155, Recurring Publication Control Card.

Revisions to the catalog will be issued at least semiannually. In any event, a revision will be issued on or before June 30 each year to assist users in their annual review as required by VA Manual MP-1, Part II, Chapter 16, Paragraph 12.

RECISSION: VA Catalog No. 2, January 1990
